IDE Spot Survey

China's Non-Performing Loan Problem

March 2000

Edited by Mariko Watanabe

INSTITUTE OF DEVELOPING ECONOMIES
IDE-JETRO

The aim of the Institute of Developing Economies (Ajia Keizai Kenkyusho) is to conduct basic and comprehensive research on economic and related affairs in Asia and other areas which are on the road to development. It, thereby, contributes to the promotion of economic cooperation and the improvement of trade relations between Japan and these areas and, ultimately, toward the prosperity and welfare of developing countries.

The Institute was founded in December 1958 as a nonprofit organization. In July 1960, it was recognized by law as a semi-governmental body. The Institute merged with JETRO on July 1, 1998 to strengthen trade and economic cooperation with the Asia Pacific and other regions.

As of March 1, 1999, the number of staff members was 252, of whom about two-thirds are engaged in research (including 30 stationed overseas), with the rest employed as librarians, statisticians, or secretarial personnel.

*IDE Spot Survey intends to respond to public demand by offering prompt and proper analysis of emerging problems in developing countries. Previous issues include **Examining Asia's Tigers—Nine Economies Challenging Common Structural Problems—**, July 1997, **Economic Outlook for East Asian Economies over the Next Decade—Is Continuous High Growth Possible?**, October 1997, **From Storm to Thunder—Unfinished Showdown Between Iraq and U.S.**, March 1998, **Deepening Industrial Linkages Among East Asian Countries—In the Light of International Input-Output Analysis**, March 1998, **China's Roadmap as Seen in the 15th Party Congress**, March 1998, and **The Caspian Basin Oil and Its Impact on Eurasian Power Games**, June 1998, **Asian Economic Crisis 97/98 – Issues in Macroeconomic Imbalances, Capita Outflows and Financial Crises**, March, 1999, **Economic Crisis and Korea/Taiwan**, March, 1999*
